

# Attention Detail

Live Organized with Style

## Here's what they're saying about our customized workshops!

*Bernadette and Susan know how to pack them in! They developed a following at my library and we always had capacity crowds. Whether telling people how to stage their homes to get a better selling price, or conducting their informative (and entertaining) anti-clutter seminars, they know their business and they please their audiences. Highly recommended!* Michele Reutty, Director, Oakland Public Library

*The time and effort that Bernadette and Susan obviously put into the content of their seminars has been of great benefit to the folks of the Hasbrouck Heights community who have attended their sessions. The loyalty and following of so many townspeople is a testament to the value they affix to the subject matter and to Bernadette and Susan, personally. We hope that they will continue to be a part of our town and bring information with flair to people who continue to look forward to their interesting, informative and entertaining workshops.* Melissa Singlevich, Reference Librarian, Hasbrouck Heights Free Public Library
